## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

#### 43 CFR Part 2620

RIN 1004-AC71

#### State Grants, Alaska

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Proposed rule; withdrawal.

**SUMMARY:** The Bureau of Land Management (BLM) is withdrawing a proposed rule published in the November 15, 1996, **Federal Register**, that proposed removing subpart 2627 of 43 CFR part 2620. This subpart spells out the application process involved in the State of Alaska's selection of lands under the Alaska Statehood Act and the Act of January 21, 1929 (University of Alaska land grant). BLM had proposed removing the regulations because we thought they were repetitive of statutory language, outdated, and not necessary for program implementation.

**FOR FURTHER INFORMATION CONTACT:** Frances Watson, Regulatory Affairs Group (WO-630), Bureau of Land Management, Mail Stop 401LS, 1849 C Street, N.W., Washington, D.C. 20240; telephone (202) 452-5006 (Commercial or FTS).

**SUPPLEMENTARY INFORMATION:** BLM published the proposed rule on November 15, 1996, at 61 FR 58500-58501. We received one comment from a State agency during the public comment period that ended on January 14, 1997. The agency opposed the proposed rule as being premature since all State selections have not been made under the Alaska Statehood Act and the Act of January 21, 1929 (University of Alaska land grants). After consideration of that comment, BLM has decided to withdraw the proposed rule and will take no further action on the proposal.

Dated: March 5, 1998.

**Bob Armstrong,**

*Assistant Secretary, Land and Minerals Management.*

## FEDERAL EMERGENCY MANAGEMENT AGENCY

### 44 CFR Part 67

[Docket No. FEMA-7247]

#### Proposed Flood Elevation Determinations

**AGENCY:** Federal Emergency Management Agency, FEMA.

**ACTION:** Proposed rule.

**SUMMARY:** Technical information or comments are requested on the proposed base (1% annual chance) flood elevations and proposed base flood elevation modifications for the communities listed below. The base flood elevations are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

**DATES:** The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

**ADDRESSES:** The proposed base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the following table.

**FOR FURTHER INFORMATION CONTACT:** Matthew B. Miller, P.E., Chief, Hazards Study Branch, Mitigation Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-3461.

**SUPPLEMENTARY INFORMATION:** The Federal Emergency Management Agency (FEMA or Agency) proposes to make determinations of base flood elevations and modified base flood elevations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed base flood and modified base flood elevations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain

management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

#### National Environmental Policy Act

This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

#### Regulatory Flexibility Act

The Associate Director, Mitigation Directorate, certifies that this proposed rule is exempt from the requirements of the Regulatory Flexibility Act because proposed or modified base flood elevations are required by the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and are required to establish and maintain community eligibility in the National Flood Insurance Program. As a result, a regulatory flexibility analysis has not been prepared.

#### Regulatory Classification

This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

#### Executive Order 12612, Federalism

This proposed rule involves no policies that have federalism implications under Executive Order 12612, Federalism, dated October 26, 1987.

#### Executive Order 12778, Civil Justice Reform.

This proposed rule meets the applicable standards of section 2(b)(2) of Executive Order 12778.

#### List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:
